April 2026

Guess who's going to Disney!

The creativity, heart, and effort behind the B.A.B. Family Challenge participants truly inspired us – but one family's submission stood out in a big way. Congratulations to the Lee Family for delivering an unforgettable entry! Because of their incredible work, they'll be heading to Disney World on an all-expenses-paid trip – a well-deserved, magical reward! We are so proud of their dedication and grateful to every family who participated.

ASAP at ASADS

ASAP was excited to learn and grow during the Alabama School of Alcohol and Other Drug Studies (ASADS) Conference March 23–27. Continuing education is key to our mission.

Talladega Girls Conference!

ASAP had the privilege of attending the Talladega High School Girls Conference, where we encouraged young women to think intentionally about their futures. Through hands-on vision board activities, students explored their goals, built confidence, and reflected on the positive paths they hope to pursue. We're proud to support and uplift the next generation of leaders in our community.
